

Empathy Map

Date	29 june 2026
Team ID	SWTID-2026-3278
Project Name	Credit Card Approval Prediction
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS "I need a credit card with quick approval."	THINKS "Will my income meet the bank's requirements?"
PERSONA NAME <i>Potha yuva</i> <i>Priya</i> <i>First time credit</i> <i>Card applicant</i>	
DOES "Uploads income and identity documents."	FEELS "Confused if the rejection reason is not explained."
