

## Solution Architecture

|                      |                                 |
|----------------------|---------------------------------|
| <b>Date</b>          | 01July 2026                     |
| <b>Team ID</b>       | SWTID-2026-3278                 |
| <b>Project Name</b>  | Credit Card Approval Prediction |
| <b>Maximum Marks</b> | 5 Marks                         |

### Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

## Component Description Table

| Component Name                  | Description / Role in Architecture                                                | Technologies Used           |
|---------------------------------|-----------------------------------------------------------------------------------|-----------------------------|
| Presentation Layer              | Allows users to enter applicant details and view approval results.                | HTML, CSS, Bootstrap        |
| API Gateway                     | <i>Receives requests from the user interface and sends them to the ML model</i>   | <i>Flask</i>                |
| <i>Machine Learning Service</i> | <i>Predicts whether the credit card application will be Approved or Rejected.</i> | <i>Python, Scikit-learn</i> |
| <i>Database / Dataset</i>       | <i>Stores applicant information and historical credit card data.</i>              | <i>CSV Dataset</i>          |
