

Problem-Solution Fit

Date	01 July2026
Team ID	SWTID-2026-3278
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Individuals applying for credit cards, banks, NBFCs, and financial institutions.	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] Low credit score, incomplete documents, low income, lack of credit history, high existing debt.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Manual Review: Accurate but slow. Rule-Based Systems: Fast but less flexible. Machine Learning: Fast, accurate, scalable, but requires quality data.
---	--	--

2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Long approval time, manual verification, incorrect approvals/rejections, high risk of defaults, frequent document verification delays.	9. PROBLEM ROOT / CAUSE [RC] Manual processing, inconsistent decision-making, limited risk assessment, missing or inaccurate applicant information.	7. BEHAVIOR + ITS INTENSITY [BE] Customers prefer instant online approval, upload documents digitally, check application status frequently.
3. TRIGGERS TO ACT [TR] Need for quick credit card approval, increasing online applications, reducing fraud, improving customer satisfaction.	10. YOUR SOLUTION [SL] Develop a Machine Learning model that predicts whether a credit card application will be Approved or Rejected using features like income, credit score, employment status, loan history, age, and debt-to-income ratio. This improves accuracy, speeds up approvals, and reduces financial risk.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Bank websites, mobile banking apps, online financial portals, customer support centers.
4. EMOTIONS BEFORE / AFTER [EM] Before: Confused, anxious, uncertain about approval. After: Confident, satisfied, informed, and stress-free.		OFFLINE Bank branches, customer service centers, financial institution offices, application counters, and direct interaction with bank representatives.
